

The Supernatural Cause

We know of a certainty, that our god is a supernatural being, having all knowledge, all power, being ever present. Unlike the gods of this world (the figment of men's imagination), which many having eyes and ears yet unable to see or hear. The Lord God almighty is not only able to see and hear, but also able to understand the thoughts of men's heart. This supernatural ability far exceeds any expectation of the logic of the human mind. In this many are baffled at such a possibility.

If this be the case, that our God is of such substance, then it is of reason that everything associated with him or even the approach to him must be supernatural also. His kingdom, the church of God, must be of the same substance. If the church is supernatural then the entrance must be also. This is why Jesus said, "ye must be born again". The only entrance into God's church is a supernatural one. How can a man be born again, it is beyond reason isn't it? Yet, God has made a decree unless a man become born again he cannot see the kingdom of God! Only the supernatural God can do such a thing, thus pushing aside all the ideas of human theology that enlist various view points of *church entrances*.

The life that is well pleasing to God (holiness) must be termed supernatural also. It is beyond mankind of himself to be able to live a life without sinning when it is the very nature of man to rebel against the way of holiness. If we are going to accomplish such a feat it can only done with a nature that is superior to ours. Yet, that is what God does when he fills with his Spirit. The Holy Ghost, remember, is God. If he comes in and makes his abode, then there is that supernatural presence that enables one to live a supernatural life, thus fulfilling the supernatural cause. God wills that all men be saved and be sanctified, this is the supernatural cause! It can only be accomplished by the supernatural being

whom we call God. By faith in such a God, an experience of such magnitude can be truly completed.
